Treason in the Skies

SINCE January 1st, this year, American warplane crack-ups have cost more than \$1,000,000. Major Al Williams, Scripps-Howard aviation authority, states that the Douglas bomber which cracked up January 23d cost \$100,000. The Army Lockheed, which made the coast-to-coast record, and cracked up at the end of the flight, cost \$400,000. A giant Army bomber cracked up and burned at Wright Field, and \$250,000 went up in smoke. A Seversky single-seater crashed and cost \$150,000. Major Williams lays these disasters to "the pressure of the air rearmament program. Hurry and lose money, is the iron-clad law of the air." But patriotic aeronautical experts assure us that the real story of these experimental warplane losses has never been given to the public, and the sordid secret is known only to a few in select aviation circles—men who dare not reveal what they know for fear of being placed on the dreaded Roosevelt-Jewish Administration black list. Any aeronautical expert who gets his name on this blacklist cannot get a job on any aviation field, in or out of the Government, anywhere in America.

CONFIDENTIAL information reveals that when a new, latest-model warplane is developed and shows a promise of being a world-beater, it will mysteriously crack up! The wreckage will be so complete that about all left for the board of inquiry is, to hold a post mortem and make a formal report to go into Government files—that gather dust! After these crashes, something of equal, or greater, mystery is said to happen—

Another plane of that model is not built! Germany builds 10 to 20 of each model experimental warplane, but we build only one! Then comes a second mysterious happening: Tools, jigs, dies, patterns and blueprints of these successful but ill-fated models are either destroyed—or they disappear! Who orders their destruction? What premeditated treason in high "political" circles, accounts for such disappearance? Talk with men who know what is happening in aviation today and wise in the Communistic conspiracy—Jewish to the core—that is dictating the policies of our Administration, and they will tell you they have every reason for believing that the blueprints, at least, find their way into Mexico!

Why into Mexico? Read the article on Page Six of this issue and the answer will be apparent.

At a time when the President and a whole army of warmongers are releasing tons of propaganda for peace-time preparation for war on the largest scale in the history of this country, why should American military aviation be mysteriously sabotaged to the point of destruction?

We come to the logical conclusion that it is the intention of the Jewish Bolshevik strategists to let loose the dogs of the Red Revolution in Mexico. Superiority in the air decided the issue in Spain, and thus the Jews reason that they will equip the Red Revolutionary forces that are concentrating in Mexico with the best and fastest warplanes—obviously developed at the expense of the rebelling taxpayers of the Gentile United States. When a plane has been tested out and found to have superiority over the more antiquated defense models with which the Army is equipped, the first proving ship would seem to meet with destruction, the plans go over the Border, and plane manufacturers working in the interests of the same gory mob who made a shambles of Spain for thirty-five months, proceed to construct fleets of these better craft and hold them against the hour when they will be needed to "cooperate" with the Red bloc launched upon the program of bringing America into subjection.

There is no other construction to place upon events known to be taking place below the Rio Grande!

THIS program of selling out America to the Communists—meaning World Jews in Action—is Treason Personified, and so long as the present Israelite Crowd is permitted to run wild with Federal power and Federal finances, it will insensibly persist in the course it has planned.

The American people have one distinction—they have paid out more billions of dollars for the financing of Jewish Red revolutions than all the rest of the nations of the world lumped together!

It is one thing to caterwaul vaguely about America's landing in the control of a mob of Communistic Jews—and forget the whole business while the nearest movie show invites. It is quite another thing to realize that daily and hourly the satanic business is afoot of seeming to make a great noise about air defense on the one hand, and using the Federal tax moneys appropriated in result, to develop better aircraft for 'comrades' across the Border.

Every happening in aviation circles points to the fact that Mexico is the strategic base from which the Jewish Bolsheviks are planning to operate. If they don't plan to operate from Mexico when the expedient moment comes, why are they assembling there in such significant numbers?

The greatest prize in the world today is the potentially rich United States. All other countries have driven them forth. We condone them with our willy-nilly policies of "tolerance" and allow ourselves to be hypnotized by catch-words like "democracy" and our ultimate subjection is but a question of time. We pass heavy appropriations for air defense, develop the planes, prove them, crack them up—a million dollars' worth in six months!—and allow the blueprints to reach the hands of our foes.

And who is responsible? The First Communist President of the United States—he is responsible! After him, comes ourselves—for permitting ourselves to be deluded by this colossal Tolerance Hoax!

Rabbis in Week's Huddle Agree to Rant for Patriotism

ONE of the strangest—and funniest—sights in life is a flock of Yiddish rabbis, come together at this fraught stage in the nation's history, for a Talmudic huddle on what to do to combat anti-Semitism.

Whiskers, palms, wails, and fulminations are riotously fused together in one calorific talk-fest on how to cement the gains which pants-pressers have fanaggled under Roosevelt, and keep them cemented till that happy moment arrives when Jews can take over—openly—and grind their "enemies" beneath the kosher heel.

One of these days some important rabbi will discover that the split second the Jew departs the psychology of forever "combating enemies," he won't have enemies—any more than the Irishman, the Italian, or the Swede has enemies. But the Jew is too childishly introvert and egocentric as yet, to grasp that fact.

If the Jew isn't persecuted, something is wrong and he isn't happy. So he pursues activity that keeps him persecuted. If he doesn't do it himself, then his rabbis do it for him.

Leading "reform" rabbis of the Nation gathered at the Mayflower Hotel in Washington this past week and held a five-day conference on how to keep Jews happy by making certain that they stay persecuted.

They didn't put it in just that way, of course. And three out of five rabbis didn't realize that they were doing it. But the mere fact that such a session was considered necessary, and consisted of what it did, demonstrates that the rabbis intend that their Jewish racials shall be a class and caste distinct. The occasion was the so-called Golden Jubilee of the Central Conference of American Rabbis, though what they had to hold a jubilee about—unless it were plenty of chances for persecution—was not brought out on the programs.

ANYHOW, two hundred rabbis came together at the Capital and harkened to suggestions, plans, and recommendations for setting the Jewish people still further apart from the rest of the census, by going in—not as Americans but as Jews—for a program of aggressive patriotism.

One thing that the bewhiskered Talmudists did *not* know was, that a representative of LIBERATION sat in on most of their sessions and took copious notes on what was said, for Chief Pelley of the Silver-shirts.

Comments the said correspondent by way of alibi: "I had—practically—to live with the rabbis to get the drift. Think nothing of it, if when next you see me, I'm wearing a skull cap myself."

The "drift" as later determined, ladies and gentlemen of the LIBERATION audience, boiled down to this—The rabbis are going to *push* and *push* and *PUSH!* the "fact" that this is a democratic country and that they are an important part of it.

Furthermore—and this is the Big Laugh—the Nation's Gentiles are going to be properly propagandized that Jews are more patriotic than any other races or groups, *due to heaviest Jewish financial investments in this country*—and that the anti's are not patriots but "racketeering wreckers of our democracy."

In other words, without discerning a single grain of irony in his declaration, the Jew now proclaims unabashedly that he is most patriotic because he has most to lose in his pocketbook if the Government goes haywire!

Obviously, the Jew thinks that this is an argument that should register unerringly with Gentiles. He never tumbles to the fact that by thus advancing patriotism on materialistic grounds, he is more than ever proclaiming that same Jewishness which makes him *persona non grata* in the Christian scene at present.

The Gentile retorts: "Yeah, you probably can't see any other motive for patriotism, because you're a Jew. We Gentiles happen to be patriotic for the principle of the thing. To 'ell with our 'investments'."

THE SECOND psychological curiosity produced by the rabbis in the Capital huddle was the recommendation that Jews everywhere take the stand that the "anti" feeling is but temporary—a sort of nine days' racial wonder—that it will soon subside, and that after its disappearance, the Jews again will "lead the way." To where, or what, they fail to specify.

Page Three

0732

Neither did they make clear just what will cause the "anti" feeling to subside.

LIBERATION's correspondent gathered that the rabbis expected the "anti" feeling to subside all by itself and without the slightest change in their tactics or megalomaniacs. They did not once refer to Germany, Austria, or Italy, as a case in point. They *did* register in many places, however, that the "anti" feeling would subside a whole lot faster if the Government of the United States could only be brought to crack down openly on the Moseleys, the Coughlins, the Edmondsons, the Deatherages, the Trues and the Pelleys.

These gentlemen, each and severally, seem to be bothering the rabbis quit a lot, and seriously impeding the subsiding of anti-Jewish sentiment.

What to do about the whole of it?

Well, they certainly must join with the Christian forces to prevent Fascism from gaining a strong hold on this country, *but they are NOT going to fight Communism!*

Conversely they will exert every effort to "expose" all anti's "to the light of day," in order to prove to the Christians that the "anti" individuals are not Americans but Hitlerites.

DECLARES the LIBERATION reporter: "I had a dozen Jews go to particular pains to inform me that they *knew* that the 'anti' leaders in this country were getting all their money for operations from Hitler. And are they spreading *that*! They repeat it to everyone they can buttonhole, for the one obvious purpose of convincing gullible Gentiles that the sentiment against Jews—mounting by wholesale in this country—is something brought to these shores, or sent over here, by 'paganistic aliens.' I wish I could decide whether or not they actually believe it. Some, I'm convinced, actually *do* believe it. Their minds simply don't encompass any recognitions that Jews in America, or in Roosevelt's Administration, are in any way at fault."

So the Jew, directed by his rabbi, is going in for Patriotism in a Big Way. And his method of going in for Patriotism is to take full-page advertisements in the newspapers on every occasion and screech to high heaven about Democracy.

Watch for those advertisements! Incidentally they likewise mean revenue for subservient newspapers!

The Jew is going to proclaim himself the biggest patriot because he has the heaviest financial investments in the United States—something like 65 to 70 percent at the present moment—and if the country should be stood on its head by any Gentile or "undemocratic" overthrow of government, Jewish losses would be heaviest.

It is, however, strictly against any "Fascist" overthrow of Government, that the Jew will put down his salvos of advertising. Fulminating against Communism will be merely the side line. Bureaucratic New-Deal aggressions are satisfying him in respect to the achievements of Communism. But the "Fascists"—meaning all those opposed to Roosevelt, or his New-Deal measures, or his Jewish bureaucracy—must be seen to.

Jews, led by the Central Conference of American Rabbis, are going to become most vicious about it.

Writes the LIBERATION correspondent: "We are going to have plenty of this 'anti-Semitism is Hitlerism' to contend with, from now on, because Jews everywhere are beginning to realize that they are fighting their last fight. Again and again this acceptance was apparent during the sessions of the Conference. They are out for blood, but in the guise of patriotic Americans, exponents of Democracy! Every Jewish man, woman, and child is being called to fight for Democracy, to down the "anti" feeling. Particularly are they concentrating on Capitol Hill. . . .

"Out of natural curiosity, I delved into the why's of the Rabid Rabbis of the Vermillion picking out Washington, D. C. as their nesting-place at this particular time. Well, I ran right into it without even asking for it—the chance to do their congressional lobbying, along with their ranting about Democracy and patriotism to prove themselves Americans. . . .

"They packed the offices of Senators and Congressmen on the Hill and speared whichever solon would stand still and listen. And did their victims squirm and wriggle! It was the first personal contact with the Jewish Question for some. . . . All Jewish members of Posts of the American Legion in Washington and places nearby, are likewise calling on members of Congress and putting on the heat to have laws enacted to halt the Moseleys, Coughlins, Edmondsons, Deatherages, Trues, and Pelleys. . . . Watch for the big full-page advertisements to be inserted in papers all over the Nation by the Jewish War Veterans, proposing big cooperative activity in all forthcoming Independence Day celebrations. Believe me, the pants-pressers are going to get under the ammunition wagon in a scurry when it comes to impressing on the Nation what patriots they are—and on the strength of it they should be permitted to continue right along, making a mess of our Government."

WELL, the rabbis have held a five-day conference, decided to spend some dividends from their good 'investments' screeching for patriotism, and try to impress as many Americans as possible that no one but Hitler is responsible for the sentiment rising tidal-wave-high against them.

It is all the desperation of an irresponsible, childish, and slightly warped people who don't exactly know what to do about the messes they are making and who should be humanely taken in charge for their own longevity and welfare.

Tens of thousands of Americans who have done their own thinking and reacting to the Jewish Head-ache, and contributed their own sparse moneys to the "anti" fight, will eventually discount and deflate the national "recommendations" of the Washington rabbinical pow-wow.

None of it alters the individual's personal antipathy to the Sons of Jacob because of their conduct toward him in the 'we-and-take' of business or society. Meanwhile, one of the strongest—and funniest—sights in life is a flock of Yiddish rabbis, come together at this fraught stage in the nation's history for a Talmudic huddle on what to do to combat anti-Semitism.

If they knew how to truly lead their people constructively, *they wouldn't ever have become rabbis in the first place!*

Congress Wipes the Grin Off the Presidential Face

WHEN the whole House of Representatives stays in session till midnight on one of the hottest days of the year, to make certain that everything the President wanted in the way of WPA appropriations and legislation was *killed dead*er than the proverbial smelt, it means that the Nation has traveled a long and tortuous way since November 4th, 1936. That, you'll remember, was the date that a certain Smiling Gentleman residing in the big tepee on Pennsylvania Avenue had a lot of Yiddisher cream to wipe from his chin while he talked of "mandates" he'd been given to wrap this nation up and put it in his pocket—*permanently!*

Well, in the past three years, the aforesaid pocket has developed quite a rip.

On Friday night, June 17th, the members of the House of Representatives—Democratic as well as Republican—forgot all about that three-year-old mandate but they did not forget the grin.

They wiped it off the presidential face with slaps to right and left, they pinned back the Presidential ears, they yanked the Presidential nose, and in most amazing fashion they jerked a forefinger under the presidential necktie and ripped it from his bosom.

When the Bill finally passed the lower House, it was difficult to say which had fared worse, WPA-Communist appropriations or the congressional prestige of one FDR who had insisted the Bill be passed as he wanted it or he'd see about purging the whole western hemisphere.

"You and who else?" sneered Congress. "Lop off another hundred million!"

OF COURSE, lopping off these hundreds of millions right and left didn't amount to so much as a matter of cash. It's just as easy to wipe off a billion that you haven't got as to wipe off a few fractions of billions that you haven't got. Still, it *did* indicate how the country itself feels about the Roosevelt Squanderbust.

Not a man in that Congress would have dared to trim down that WPA measure and take it away from the Presidential executive, if he hadn't received the unmistakable direction of the people back home who elected him.

It's a pretty good indication of what's due to happen in 1940. And the sentiment of the people back home was grimly voiced by Rep. Van Sandt of Pennsylvania when he said in one speech: "The President has a faculty for turning pretty phrases. Not so long ago he told the country that America 'has a rendezvous with destiny.' He used the wrong word. America has a destiny with *bankruptcy!* That's where we are headed—hell-bent for national bankruptcy. . . . yet the President and his White House yes-men complacently tell the country that there's no danger in this spending policy. Some screw-ball economist reached into thin air and came down with

a theory that the United States is in no danger of bankruptcy until the national debt reaches \$80,000,000,000 and the New-Dealers have been parroting that unfounded, crack-pot theory ever since."

Congress, obviously the last place in the Nation to awaken to any menace to the Republic, has suddenly come to realize that the plain folks back home are all stirred up, that they're fed to satiation with Jewish Communism going into government ala "must" legislation from the White House, and if Congressmen don't halt it, they needn't come home. *The people themselves may pay a visit to Washington, D. C., instead! . . .*

SO the character of WPA changes, the \$10,000 a year Jewish chair-warmers are to be kicked out, a three-man board is to administer relief without political high-jinks and dollar-juggling by the White House Gang, the United States Government is going out of the business of producing Communist theater plays and charging the cost to the Gentile taxpayer, and a crowbar the size of a telegraph pole is cast into the cogs of the Roosevelt Machine that was supposed to run forever—or end in Moscow.

Roosevelt and Congress have come to the parting of the ways. Congress takes the high road, and Frankie takes the low road. Very low at the present time, thank you!

What he will do about it, remains to be seen.

The general consensus of opinion in Washington is, that now that home sentiment has turned against so many Jews in government, Congressmen are somewhat less jittery about what vengeful Jews can do to them in the matter of stopping their reelection.

It's his pro-Jewishness that has been steadily undermining Roosevelt, quite as much as his anti-Constitutionalism. And apparently it was the worst possible psychology to have a mob of Yiddisher rabbis flock around Capitol Hill and screech what they wanted in the way of pro-Communist legislation just at the time that the WPA pork-barrel was coming up for a vote.

ALL of it means, ladies and gentlemen of the LIBERATION audience, that Franklin D. Roosevelt and his Ukrainian Bureaucracy have landed at last upon the political skids. If the anti's weren't winning this fight—if they hadn't been winning consistently since the fiasco of the court-pack—the story of WPA last week in the Congress would have read far differently. Roosevelt may yet run for a third term, but by no means do the WPA millions—your cash and ours—lie at his left hand, ready to finance his trick election.

No matter how the WPA goes from this date on, it may be discerned in retrospect that last Friday night in the House of Representatives was the date of Roosevelt's Waterloo—the date of the beginning of the New-Deal crack-up!

Now what faces us is the chaos of reprisal for daring to deny our beloved Sephardic Nero more matches with which to burn the American Rome!

Page Five

0733

Will Mexico Be the Base for a Red Invasion of North America?

WHILE Congress and the President are engaged in a tug o' war over WPA finances, while the King and Queen are putting on a royal press-agent stunt for British friendship in this country, while Representative Shafer is griping over somebody's rifling the offices of congressmen and putting dictophones on telephone wires, and most of our newspapers are filled with balderdash about exhibits at the New York Jewish World's Fair—in short, while everything from a Japanese war scare to a Dies Committee investigation of an army general is engaging the attention of the rank and file of our people by malice aforethought—strange things are happening unnoted and unchallenged to our so-called "sister" republic south of the Rio Grande. It is time that attention was called to them, and their fearsome menaces at least touched upon briefly.

Least publicized in the jewspapers of all explosive dangers facing the stricken United States at present, is that of outbreak of Jewish Bolshevik Revolution in Mexico, and the probability of a repetition of the purgative sequences of Russia and Hungary being enacted within an afternoon's auto drive of the home of Martin Dies.

You notice that not much news of happenings in Mexico is finding space on the pages of our papers at present—in consequence of which, the average American naturally concludes that not much is happening in that volcanic republic. But very much indeed is happening in that volcanic republic, and the fact of so much silence just now, regarding Mexico, is ominous of itself! . . .

LET the LIBERATION audience be advised that since the ending of the war in Spain, the defeated Bolshevik leaders have not been going back to Moscow. Quite the contrary! The defeated Bolshevik leaders are reported as pouring into Mexico by wholesale—in the guise of refugees. Insignificantly stated in one press dispatch within the fortnight was the announcement that more than 1600 had landed within a single day—over 1000 of them men. How many have already come in, we have no means of knowing. Trans-Atlantic dispatches say that 50,000 more of trained Moscow leaders are "preparing" to leave France for Mexico, to locate in the provinces along the Texas Border! In Mexico now are the notorious Red "Spanish" leaders Juan Negrin, Julio Alvarez del Vayo,

and Bela Cohen—alias Bela Kun—the infamous butcher of Gentiles in Hungary.

Dolores Ibarruri, the female Bela Kun, glorified by the Spanish Reds, has crossed the Atlantic to carry on her work. Fernando de los Rios, Red Spanish Ambassador to this country, is reported as gone to Mexico. Are they gathering down in Mexico to exchange reminiscences?

The whole Roosevelt Administration, being Jewish at its core, is swinging on the tail of the Red Revolutionary kite.

And whether you care to accredit it or not, *Trotsky flies at kite!*

YOU have wondered, perhaps, at Trotsky's strange silence in Mexico, and total lack of news about his activities, coming northward from that country. Is anyone more than fourteen years old so naive as to conclude from such lack of news, that he is doing nothing, saying nothing, planning nothing—that his career is "washed up"?

All of it adds up to the fact that this stupendous aggregation of Moscovite Murder Workers would not be gathering over here in this western hemisphere unless it had plans that were imminent of execution and vital of significance.

These Bolsheviks do not want Mexico. There is naught in the tiny country between the Rio Grande and Central America to attract their mischief-making genius.

What attracts them to this side of the water are the colossal gains for world-wide Bolshevism, to be seized in the item of the bedeviled United States!

To accept this analysis—something that wise heads in the army long since have done—is to fit a key into a key-hole that turns a lock perfectly. Mexico is the ideal gateway for the entrance of the Trotsky-Kun brand of bloody Bolshevism to America.

And Texas is the corridor through which it comes!

With open Bolshevism in control of Mexico, and two thousand miles of flat and unprotected border stretching from Brownsville to San Diego, how long would it require before the Red hordes of Mexico formed working liaison with the Jewish Reds of the United States, particularly so in view of the fact that our prevalent Federal Administration is entirely in sympathy with its atrocious introduction! . . .

One of these mornings the American people may be due to awaken to the scope of the wickedness they have allowed to flourish beneath the guise of New-Dealism.

AS FAR back as October of last year, Paul Mallon reported in his syndicated column that intelligence operatives "recently discovered a secret radio station of enormous range in the mountain recesses back of Mexico City." He suggested that perhaps Trotsky used it to receive messages during the Spanish Civil War, and rebroadcast them and his orders to all parts of the world.

But supposing that this broadcasting station, or Trotsky's use of it to date, were merely incidental to more extensive plans

STALIN

worked out for the final overthrow of all Gentile Constitutionalism on the North American continent? What then?

On January 9th, the *Merry-Go-Round* said "there is danger of revolution and possibly complete chaos in Mexico, at any moment." People on this side of the line thought that this meant merely another localized conflict.

Out from the camps of the Reds in the upper brackets, however, leaks a different type of news.

The "revolution" that breaks out in Mexico next—it is far more credible to believe—will be the type of revolution meant to spread its contagion all up through Texas and into our Middle West. Consider the proofs to be found in the altogether mysterious aeronautical situation. . . .

WHEN the Neutrality Act became fully effective, direct shipments of war equipment could not be made to the Spanish Civil War belligerents. This hit the Jewish Loyalists hardest, but for not long. . . .

The wealthy Jews who back Communism both here and abroad, discovered easy ways to circumvent the congressional mandates. Capital was raised and buildings rented of the Canadian Car & Foundry Co., Ltd., far up in the more inaccessible areas of Quebec. Certain warplane parts were manufactured therein. Directly from this country, other parts were made and shipped there. The Canadian plant of the car and foundry company became a great assembly center, from which airplanes were turned out and promptly shipped abroad.

From time to time information trickled through the aeronautical world that difficulty was being experienced in making these parts fit. But then a more serious veer was given the information leaking through, to the effect that models of our latest American passenger and army planes were being copied by this outfit.

At about the time that it became clear to international Jewish strategists that the Spanish "loyalists" were due to lose the war to Franco, mysterious orders arrived from somewhere—through the Dominion government—that this airplane factory could no longer do business on Canadian soil. This meant an "enforced" removal.

From the winter frosts of south Hudson's Bay, therefore, almost in a single maneuver, the airplane works that had been supplying the American-modeled planes to the European Bolsheviks, suddenly "found sanctuary" below the Rio Grande. The dispatch did not state why such extraordinarily large quantities of planes should be in demand by the impoverished government of Mexico, against whom it meant to use them, or how it meant to maintain them—particularly in view of the fact that the present pink government of Mexico is barely being kept afloat by the heavy purchases of silver from Mexican mines while American mines lie idle.

Anyhow, the same firm of Jews that had been supplying Red Spain with its warplanes from Canada, is now reported as working overtime down in Chihuahua, but strange to say, there comes no word through to aviation centers here in the United States that these planes are being exported! Those planes, to all intents and purposes, are staying in Mexico City!

And appalling to American army circles, they have a cruising radius of 300, 600 and 900 miles northward from Chihuahua. If they "cooperated" with Red contingents already ensconced in the United States under the kindly protection and patronage of a Red-Jewish Administration in Washington, who is to say what horrors await American cities and American Gentile population south of a line drawn fan-shape from Los Angeles on the west to Kansas City on the north, and New Orleans and Memphis on the east?

Red planes, dispatched out of Chihuahua, with a 900-mile cruising radius and equipped with the latest one-pound heat bombs—over a hundred bombs to a load—could lay in absolute waste the whole southern half of our country, by fire, in almost a single expedition!

These new heat bombs, almost noiseless in explosion, not much larger than an ordinary water tumbler, detonate on striking solids and release a heat of 6000 degrees. Everything within area of their detonation springs into spontaneous combustion—concrete buildings as well as those of wood or brick. Asphalt burns like powder at 3600 degrees. The new small heat bombs release a heat 1400 degrees hotter than the temperature required to set an asphalt street aflame!

And that the Reds of Mexico, insidiously and industriously getting ready for a martial conflagration over on this continent, under the kindly patronage of Jews in our Washington government, have these new heat bombs as part of their equipment, is so open a secret that you can hear them discussed at any airport.

YES, all seems to be quiet along the Rio Grande—and below it—at present. But in the wake of a total repudiation of Roosevelt's Administration, and the wholesale defeat of New-Dealism by the anti-Semitic forces of the country, let the American people not be surprised if the vast flocks of Hebrews now screeching for tolerance within our borders, and smearing their "We're-Patriotic-Too!" advertisements across the Sunday supplements, soon turn out to be a vastly different type of menace than the average Gentile Christian at the moment conceives.

Jews will immediately scream that this is more "Hitlerism!" and "Fascism!" being raised against them to arouse the rabble and make it difficult for them to live on earth.

—Continued on page 9

In Pants-Presser Emergency Screech for the Dies Pulmotor

THE OTHER day in Baltimore, a crowd of Gentile high-school boys had a fight with a Jew boy. The Jew boy is alleged to have run true to racial form and made himself obnoxious to his schoolyard companions. They cornered him at recess, got him down on his back, and scratched the initial "H" on his neck with a stone. The Jew boy got up and streaked for his elders. His elders heard the story and streaked for the rabbi. The rabbi heard the story and streaked for Washington, D. C. ¶ Martin Dies and his congressional committeemen, it was evident, must come and "investigate the horrid condition of anti-Semitism" in the Baltimore public schools. Martin Dies saw the chance to get his name in the papers again. Straightway the AP carried the report that his committee of congressmen would depart for Baltimore pronto. They would look into this adolescent schoolyard spat and determine if Hitler were responsible.

Anywhere and everywhere, it seems, that any community has Pants-presser Trouble, Martin stands ready to rush his anti-Semitic emergency squad to that spot and apply the inquisitorial pulmotor.

The thing would be comic—as comic as it is absurd—were it not for revelations in the incident of why the Dies Committee seems to have been formed, and what function it is delegated to fill in an exceeding troubled nation.

THE DIES Committee was created last year by the Congress, and given a first \$25,000 appropriation, ostensibly to investigate "un-American" activities. This money was public money. It came from the purses of all the taxpayers. It was not Martin Dies's money. It was not money set aside, or specifically appropriated, to finance a secret police to save pants-presser progeny from the ire of local schoolboys. When the money was appropriated, the taxpayers of the Nation—as well as their delegates to the Congress—assumed that it would be spent in ascertaining to what extent the pernicious doctrines of Communism had penetrated the American scene and government.

Nothing was said about Jews. Not the slightest implication was made that the money would ever be utilized to "defend" one racial group against another racial group. The committee made a red-fire gesture of arriving at the extent of Communism in our Government until the serpentine trail of subversive activities pointed to the White House. Then something happened! Martin Dies "forgot" all about Red activities and began bombastically probing the menace to Americanism from six thousand German Bunders.

Strange to relate—and yet not so strange when one reasons from an enlightenment of what's going on—this was about the time that a certain "Council" was set up in New York, said to function in the promotion of "tolerance."

The Council Against Intolerance, it was called, and it was made up predominantly of Gentiles—and big-shot Gentiles, at that. Heading it was Senator W. Warren Barbour of New Jersey, with George Gordon Battle and William Allen White as co-chairmen. Down the list of members were such outstanding names as Josephus Daniels, Thomas E. Dewey, William E. Dodd, Harry Emerson Fosdick, Frank E. Gannett, Senator Carter Glass and General Hugh S. Johnson.

Martin Dies went to Manhattan at about the time this Council was put together, was photographed doing a jackanapes before a radio microphone—with several wise Hebrews looking pityingly upon him—and at his return, went to bat with all the powers of the Congress delegated to him, to see that "un-Americanism" which his Committee was created to investigate, was criticism of, or activity against, mischief-working pro-soviet Yiddishers.

Now in the wake of the insulting pillorying of Major General George Van Horn Moseley, comes the widespread story that the Dies Committee is merely the congressional arm and tool of the Council Against Intolerance, that the gentleman from Texas is to all intents and purposes working for that council, and whatever activity it pursues, has the Council Against Intolerance behind it.

Incidentally, ladies and gentlemen of the *LIBERATION* audience, this Weekly stands ready to print the full record of each person on the Committee Against Intolerance, and show that fully two thirds of its membership are made up of persons—Gentile as well as Jewish—who are outstanding patrons of the *Red subversive movement throughout America!* So what!

IT IS further reported that Dies and his committeemen are not acting upon evidence of Red activities supplied by dispassionate patriots, but upon evidence of Gentile activities against Jews supplied by Jewish members of the American Legion, bringing their usual pressure to bear upon its Americanization Committee in Indianapolis, of which Homer L. Chaillaux is chairman. In trying to defend himself on one occasion for the insufferable fiasco of the Moseley "probe," Martin Dies practically admitted that this was so, and "passed the buck" to Chaillaux and the Legion.

He pulls what appears to have been a horrible "boner," which wins support for Moseley all over the nation, and then alibis his colossal blunder by sanctimoniously proclaiming: "The American Legion put me up to it." George Deatherage says that he has seen proof that the whole

Page Eight

Harmonie Club incident was cooked up with the cooperation of Dies himself.

Either way you look at it, the affair smells of *gueltefische*. ¶ Now Dies wants another fifty thousand dollars to keep on pillorying and browbeating Gentiles who may not approve of Judaizing the Republic, and your money and ours must go to keep up attendance at his three-ring kosher circus!

Are the American people ready to set up a permanent inquisition in the Congress—and pay the shot for its upkeep—that this alleged employe of the Council Against Intolerance may continue to solve all pants-presser troubles that occur throughout the country, and when they go haywire through sheer stupidity, pass the buck for their collapse to the American Legion?

The Legion men themselves should be credited with more sense!

Shekels for the Elephant

A WEEKLY wise-crack magazine in the Capital is called *The Senator*. It was started a while back by a handful of Jew boys to take falls out of Gentile law-makers. Franklin wrote a full-page blurb, wishing it good luck, in its first issue. The other day it took a fall out of Harold the Ick. Republican Headquarters went wild with joy, adding it to their collection for the 1940 blow-off. Around the said Headquarters, you can hear this: "Every time that Harold takes a crack at the 60 Families, the 60 Families send in nice fat checks to help out with Republican campaign expenses." . . . Evie Roberts, wife of Chip Roberts, is credited with having arranged for *The Senator's* Ick editorial and would take the financial rap if called upon. She is said to be slightly crisp at Harold's attack on her hubby some ten days ago come Michaelmas. Yet Evie stands in at "1600" like nobody's business—figure that one out. If she and Harold, and the rest of the Jew-Deal Mob, get flying at one another's throats hard enough, maybe *LIBERATION* can go back to peace-time business. . . .

Blurb, Blither, and Bunk

IF YOU want to know whether or not Communism is Jewish, subscribe for *The Detroit Jewish Chronicle* and read the Jewish news week by week. Says Phineas J. Biron: "The proudest moment of Walter Winchell's life came when he saw the May 25th *Congressional Record* where his services in mailing copies of the book *Secret Armies* to members of the House was mentioned—events having proved that the book contains valuable material on Nazi spies on this continent." Events, of course, have proved nothing of the sort, the book was rank pro-Jewish propaganda written by a Communist, and mention of it in the *Congressional Record* was scathing castigation that members of the House had to receive such a volume. What's to be proud about, in the whole of it? . . . Another blurb: "General George Van Horn Moseley is the man who devised a new machine gun for shooting at the army of the unemployed who made that hunger march on Washington during the Hoover administration." Apparently there should have been no guns to halt the unemployed, invented by anybody. The "unemployed" should have been allowed to in-

filtrate into the Capital and mess up everything—after being generously financed by New York Jews to make the "hunger" march on Washington in the first place; any opposition, *The Detroit Jewish Chronicle* thinks most undemocratic. . . .

Aid-the-Enemy Kommittee

INSIDE the Dies Kommittee: Three investigators have been laid off until the Kommittee receives the \$50,000 it thinks it needs to protect all the Jews in the Nation against the rising tide of anti-Semitism. . . . And is the Kommittee lobbying for that fifty gee's? It has made more commitments than it can keep in a hundred years. . . . Whitley has moved himself and his records down to the Dies Kommittee rooms in the old House Office Building. Stripling has got himself a haircut and a new brown suit. . . . He needed both! . . . Communist Fellow-Traveler Mathews is now on the Dies payroll, probably to steer Martin on how not to tread too closely on Communist corns. . . . Young Metcalfe got the can tied to him because he was stealing too much of the front page news. Martin doesn't intend to share the headlines with anyone. . . . The Kommittee thinks, because it has excused Moseley and Deatherage, that that's the last of 'em, but it's making a Big Mistake. Dies may be through with Moseley and Deatherage, but *LIBERATION* has it on good authority that Deatherage, at least, isn't through with the Kommittee. . . . It's hot enough in Washington this season to melt the mucilage off Uncle Sam's rabbinical whiskers. All the same, Congress seems to have made up its collective mind to stay on the job till there's no particular menace from Roosevelt coming in the interim of recess. . . .

RED INVASION FROM MEXICO

(Continued from Page Seven)

But when the Trotsky-led Bolsheviks of Mexico get ready to turn loose, we shall see what we shall see!

Maybe General Moseley knew a whole lot more about this sort of thing than he was definitely asked by a Dies Kommittee laboring as stooge for these Asiatic plotters.

Watch Mexico, not for a Gold Shirt revolution but for a pivotal gesture in wholesale dynamics to provide the Red Jews of this continent with the military arm they will need in eventual crisis.

Criminals who precipitated the Spanish shambles will unerringly go where the chances are good for a repeat performance. "Where there is carrion—actual or imminent—there the vultures will gather." Trotsky has never broken with Stalin—except in the propaganda news sheets. His residence in Mexico over this long period, has not been by accident—or because Mexican authorities are particularly hospitable. The specialist in mass murder stays in Mexico because he is planning the rape of America.

And we let him do it—with the Administration's patronage. When the heat-bombs start dropping, we may thank Franklin D. Roosevelt. "We planned it that way!"

And Texas people should likewise remember Martin Dies. He also helped!

Do you think this a brain storm?

Go ask an army pilot, if you can get him to talk!

The SUPPRESSED SPEECH

of Major General Moseley
before the Dies Committee

WHAT was it that Major General George Van Horn Moseley said in his statement before the Dies Committee, that the Committeemen considered either too "hot" or too irrelevant for inclusion as part of the official record? A nation becoming mightily exasperated at the way in which this Administration is shielding Jews, *wants to know!*

**LET THE AMERICAN PEOPLE
BE THE JUDGE!**

So timely is this subject, that Pelley Publishers have prepared for a First Printing of 10,000 copies of the Moseley Statement and it can be secured in the Pelley-Booklet form without a line changed, or a word deleted, just as the General spoke it on the afternoon of June 1st.

Martin Dies Exposed!

Writes a Resident of Orange, Texas:

"This, you know, is Martin Dies's bailiwick, so I appreciate his machinations fully. You should come here during one of his visits. This district is largely rural, so you may imagine what he tells the voters. Thank you for sending the booklet: DIES'S POLITICAL POSSE. It is one opinion that the wisest procedure would be an Investigation of Martin Dies!"

"OUR MAN DIES"

is the way the Jews of the country have been heard referring to the Chairman of the Congressional Committee to Investigate Un-American Activities, since his insufferable treatment of General Moseley. If you want the full story of the pro-Jewish high-jinks that are being conducted by Dies on the taxpayers' money, send for copies of—

Democratic Dementia

ELIZABETH and George are gone, but their memory lingers on. . . . Did you know that over 70 congressmen, so-called Irish "liberals," boycotted the Government presentation to the King and Queen? But that wasn't the end of boycotts. Mrs. Roosevelt gave a tea party for the royal pair, the afternoon of June 9th, inviting mostly liberals with Communist leanings. Jews boycotted the welcoming along the route and scarcely a pants presser was to be seen. It was a relief for New Yorkers without elbows in their noses to find themselves at long last among their own kind. The boycotting was mostly because the British had not sold out the Palestine Arabs to the kosher minority. . . . Nothing is being mentioned in our newspapers of the many effronteries and unpleasantnesses at the royal couple had to endure within our borders. One outstanding item was the way that Governor Lehman sat in his automobile during the welcoming procession. The car held the royal couple, Lehman, and LaGuardia. Lehman was remarked upon for sitting deliberately with his back in front of, and *against*, the Queen. The comment was, that he apparently did not see fit to turn halfway about, as the most elementary concept of good form and tact would dictate. . . . Now it's a toss-up as to whether Franklin would go to Alaska and risk the shrimps, or traipse over to London, return the royal visits—and risk the cockney lobsters. The chances are that if he goes anywhere, he will make it London. It gives him such a splendid opportunity to come home. Martin Dies might think up that one, for publicity . . . but Franklin may beat him to it!

THE PANTS-PRESSERS have launched their newspaper-page advertising campaign on what outstanding patriots they are, duly signed by the Jewish War Veterans. The first one came out on June 14th. At the top is a small Yankee lad saluting the flag, with the pledge: "I pledge allegiance to the flag of the United States of America and the Republic for which it stands. . . . One nation, indivisible, with Liberty and Justice for all." Several bad slips in the adv. are noted. The lad saluting the flag looks like the child of a poverty-stricken share-cropper. The Pledge of Allegiance is made to the Republic, and by verdict of the 200 Rabbis at the Mayflower Hotel, this isn't a Republic, it's a Democracy. Then down in the text is this: "Shun the scoundrel who would destroy our national unity by preaching group hatred." Probably refers to the Dies Committee chairman—or does it mean General Moseley? In the lower left-hand corner are six paragraphs of brag about the great Jewish soldiers who have distinguished America's six wars. One wonders what the Gentiles were doing while those six wars were going on. . . . All of it is the usual fish-peddler hooey to hoax the Christians into the belief that by no means are Jews behind Communism. If the Nation's Yiddishers think this sort of thing is registering with the rank and file, will they please back up a couple of vans and cart away the sample pages of this adv. that have been sent this office since June 14th, from every quarter of the country excepting Hester Street, Manhattan. . . .

THE FEDERAL Theater Projects got the axe last Friday night in the House of Representatives. . . . During the day before the voting, Jew boys rushed hither and yon through-

THE BLACK STORY OF BOLSHEVISM

TWO VOLUMES FOR \$1
THAT TELL THE WHOLE MAD NARRATIVE

"The World Hoax" now 75c

A YEAR ago, Pelley Publishers issued a 230-page book—"THE WORLD HOAX"—by Ernest Elmhurst. The Deluxe Edition was sold in two weeks. The Cloth-Bound Edition was gone in two months. And there was a reason for this remarkable sale. The book told in compact, irrefutable form, the full story of Jewish Bolshevism—what Jews hatched it, what Jews promoted it, what Jews fastened it on Russia, and what Jews have been spreading it across the world since. No critic of its text could find a flaw in it. It supplied the fighters against predatory Judaism with precisely the data that they needed, to fasten the crime of Bolshevism squarely on Jewish shoulders, and none other. It served so vital a purpose, that the Publishers have now brought out a 75c paper-covered edition that is available this week. "THE HIDDEN EMPIRE" tells the story of Jewish control behind ALL countries, regardless of Communism. It sells for 25c. 50,000 copies have been circulated since its initial printing in 1935. These two books are Baedekers in the battle against the Sovieteers!

PELLEY PUBLISHERS : : : ASHEVILLE, N. C.

out the two congressional office buildings, distributing 16-page reprints of FTP blurb from *Fortune*, the super Yid business hoke. Some of the pictures were in seven colors.

Harry L. Hopkins, Patron of Art" rated a rotogravure that gave the thing class—fifth class! "Who's paying for this?" remarked sundry congressmen. "The taxpayers, you sap!" they were unkindly reminded. Whereupon, the conscience-stricken solons went Over the Way and put an end to such super-colossal high-jinks. Among other things, the United States Government no longer has the honor to present such masterpieces as Horse Eats Hat. . . . Anyhow, *Fortune* must have made a neat bit of change out of it. . . . As for FTP, on Page 10281 of the current *Congressional Record* is this enlightening bit: "Sixty-six of these plays (presented by the United States Government) were Negro plays, 52 were in Jewish, 39 Italian, 10 Spanish, 10 German, and 8 French." All of 'em are charged with telling these nationals how swell Communism was, in their own language. They will now Rest in Peace, while the New Deal that sponsored 'em will Rest in Pieces. . . . But what were 10 plays in German doing in the line-up. Where was LaGuardia while that was in progress? Anyhow, notice the Jewish plays in ratio to the others!

MORE persecution! On June 19th the United Press flashes that Princeton University seniors named Adolf Hitler as the outstanding personality of 1939. Chamberlain got second place. Roosevelt also ran—third! . . . Says *The Detroit Jewish Chronicle* again: "Don't be surprised if the million-and-a-half dollar estate of the late Otto H. Kahn at Cold Springs Harbor becomes the new Summer White House." No, we won't be surprised. Jews reside in the White House during the winter don't they? . . . Writes a man in the Know from Washington: "Senator Barbour is playing gold-fish. He sponsors Jewish activities outwardly and under-covers the 'ell out of 'em inwardly." . . . The present Governor of Utah has no love for Senator William H. King of the same State, because he is Berneybrith backed. . . . Reynolds of North Carolina is in one 'ell of a fix. His senatorial buddies are on his neck because he won't play ball with 'em. He is booked to drag himself and his Vindicators before the Dies Committee before the season is over. Therefore, funny situation in government: A committee of the House, championing Jews, investigating a member of the Senate, championing Gentiles. It's a queer world, and the queerest thing in it is Yiddish Democracy. . . .

Jew Bloom Wants his Dictator

THE long Red arm of the White House Dictator, whip in hand, lashing the members of the House Foreign Affairs Committee, compels the majority of the gentlemen working on Jew Bloom's House Resolution 306 to toe the line, and report out a bill satisfactory to the Jewish International warmongers. That whip-lash coercion came prior to June 15th, according to Paul Mallon in his *National Whirligig*.

If this bill is passed as reported out by the Committee, the legislative authority of the Congress to declare war will be un-Constitutionally given to Dictator Roosevelt—and the present packed Supreme Court would not declare it un-Constitutional. *Jews will have won, after all!*

The Jews have polished off the process of making laws as they go along; once they get the un-Constitutional powers of the Congress to do so. Bloom's bill gives the President decree powers from which there is no appeal. This is an instance of Jewish Sovietism in action.

Roosevelt started the anvil chorus of hate on June 15th, 1939, when he sounded off on the subject of "quarantining aggressor nations." Under the Bloom bill, he would get the power to name those nations as aggressors—that is, to start a war which might come in Europe, or the one in Africa. This Jewish Dictator could arbitrarily rule that any nation which is balking the extension of Yiddish Bolshevism is guilty of "aggression."

TRUE, in the initial application of this Jewish "neutrality" Resolution only economic warfare is waged, but eventually such action against any nation leads directly to war. That is the Roosevelt-Jewish intention. Roosevelt's warmongering is persistent and raucous since Congress convened. It stands as irrefutable proof of the intention of the Dictator in the White House and of his kosher advisers.

What do the experts in foreign affairs think of this war-making bill—men like Senators Borah, Nye, Reynolds, Clark and Johnson, and Representative Hamilton Fish, Jr.?

June 12th Hamilton Fish, Jr., said: "The Bloom bill is a fake neutrality and actually an interventionist bill. It is a camouflaged aggressor nation bill, which will drag us into every world conflict. Section 3, empowering the President to establish combat areas, practically gives the President the war-making power of Congress. Under the Constitution the Congress has sole power to declare war. If the Bloom bill is enacted into law, the President will be given the widest discretionary power ever given any American to put us into foreign war. The Bloom bill in the hands of President Roosevelt is an *unneutrality* act, and a snare and a delusion to involve us in war."

Then Mr. Fish goes on to say what the President has said

repeatedly; that if war breaks out in Europe, we "must" get into it. Then he observes: "President Roosevelt is already unneutral and determined to put us in war to police and quarantine the world with American blood and treasure." He confirms what we say, viz., that the Bloom bill "would virtually give the President power to declare war himself."

SENATOR BORAH militantly objected to the Rooseveltian sophistry in talking about neutrality when in fact it is the Administration's intention to use the bill, if enacted into law, to wage war. He says if we want to pass a war-making bill, we should be "entirely candid about this matter." Senator Borah says that this iniquitous bill will keep Congress in session until September 1st. As if it mattered!

Under the terms of this Jew-written bill, the President's discretionary powers are so great that he would be permitted to include the ports of England and France from the prohibited zones. The President would do just that. He has said that our fortunes lie with those countries; so has No. 1 Administration warmongering spokesman, William Bullitt, our current half-Jewish ambassador to France.

Senator Nye, Reynolds and Clark consider this Bloom "neutrality" bill in the same light as Senator Borah and Representative Fish. A total of 21 Senators up to June 15th had signed a "round robin" declaring they would vote against the Bloom Resolution. Senator Borah was not one of the signers.

THE closing days of this Congress mark stupendous sessions—in their far-reaching importance—for the American people. If we allow Roosevelt to become arbiter of peace or war, we must let him dictator, after which all other congressional obstruction to his program, go by the board. *Are we to lose the great battle in its final stages?*

On May 13th, a Catholic organ, reported an address of William J. Goodwin of New York City. An excerpt from his address reads:

"We find ourselves without any voice in the matter, at this very moment apparently lined up on the side of Communism. There can be no communion with Communism on the part of the American Republic. The very thought of alliance with a dictator (Stalin) whose hands are stained with the blood of 20 million Christians, is abhorrent to multitudes of God-fearing Americans."

A militant Congressman the other day shrewdly observed that the Members of Congress took an oath to uphold the Constitution—not President Roosevelt.

Perhaps Members of the Congress could do worse than to read in the third paragraph of Article VI of the Constitution that "all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution. . . ."

We remind the Members of the Congress of their oath!

Roosevelt started the anvil chorus of hate October 5, 1937, when he sounded off on the subject of "quarantining aggressor nations." Under the Bloom bill, he would get the power to name those nations as aggressors—that is to say, in any war which might come in Europe, or the one in the Orient, this Jewish Dictator could arbitrarily rule that any nation which is balking the extension of Yiddish Bolshevism is guilty of "aggression."

Un giornale francese « Ce Soir » ha pubblicato alcune notizie fornite da un piccolo etiopico pre-zolato, residente a Parigi, su un preteso stato di insicurezza e di disordine che esisterebbe in Etiopia. Un cittadino americano, G. B. Lastreto, S. Francisco: 280, California Street, ha replicato inviando al suddetto giornale la seguente lettera:

« Al Direttore di « Ce Soir »,

81, rue Septembre, Parigi 2.e

Nel vostro numero del 25 luglio pubblicate un lungo articolo che vuol riferire sulle condizioni prevalenti in Abissinia così come furono descritte in una intervista con un giovane etiope, Tamerat Tesemma. Quell'articolo mi ha fatto tanta impressione che, sebbene io sia un cittadino nativo degli Stati Uniti, sento, per amore della verità e della giustizia, di dover fornire un antidoto per i velenosi effetti di detto articolo. Posso appellarmi al Vostro spirito di giustizia perché pubblicate questa mia smentita generale di quelle affermazioni assurde e contraddittorie alla verità? Anziché ripetere le illimitate falsità, è più importante esporre in modo veritiero ed esatto quel che ho visto personalmente in questi sei ultimi mesi.

Ho attraversato in ogni senso l'intero territorio dell'Africa Orientale Italiana (che comprende quelle che erano le colonie dell'Eritrea e della Somalia e l'antica Etiopia), arrivando in due posti di guardia nel Sudan britannico, giungendo presso un pozzo nel deserto della Somalia britannica, e percorrendo un angolo della Colonia del Kenia sono inoltre arrivato a due miglia dalla Somalia francese; ho raggiunto due porti sull'Oceano Indiano e due porti sul Mar Rosso; ho insomma percorso una complicata rete di itinerari irradianti da parecchi centri fin nelle più remote e solitarie località. Ho viaggiato per lo più da solo e con autista, senz'armi e senza essere molestato. Da questo potete dedurre le condizioni di tranquillità e di sicurezza del paese.

Darò un esempio: nelle città indigene lontane dalle strade principali, il giorno del mercato, in cui vi era un'affluenza di circa 5000 indigeni, ho visto un Residente, l'unico bianco in una zona di circa 40 miglia di diametro, con una guarnigione di meno di 20 ascari, soldati indigeni, la metà dei quali avevano combattuto contro gli italiani o avevano appartenuto agli « scitti ».

L'ordine stabilito di pace e sicurezza operava automaticamente.

Mi fece arrabbiare e ridere ad un tempo la favola che il Governatore di Gondar fosse prigioniero; — il mio amico Generale Frusci, con la sua affascinante signora, con la sua bella figliuola, che mi avevano accolto nel loro elegante palazzo; Gondar catturata! — Ove il barone Monti della Corte sta ricostruendo le interessanti rovine portoghesi, per farne un'attrazione turistica; ove 10 mila italiani stanno rapidamente costruendo una nuova città, con strade selciate, con tutti i servizi municipali, alberghi, autobus; un nuovo aeroporto con un servizio trisettimanale per Asmara e per Addis Abeba; stabilimenti industriali ed un nuovo cinema-teatro del Dopolavoro — e dove un paio di mesi fa è stata ultimata una strada bitumata sino a Gorgora sul Lago Tana. Sarebbe stato lo stesso come dire che Parigi sia sprofondata nell'Oceano Pacifico!

Per dire tutta la verità, debbo aggiungere che in pochi territori relativamente piccoli alcuni « scitti » creduti — banditi irritati per il regime di legge e di ordine imposto dagli italiani — depredano di tanto in tanto gli indigeni loro compagni, ed hanno fatto delle imboscate contro qualche autista, quan-

do li hanno trovati soli o pneumatici. Ma il fatto che sono abituati ad una vita di sacche e di depredazioni di carovane non è politico e non ha carattere di ribellione contro le nuove autorità. Inoltre i pochi che sono rimasti, vengono a sottometterli. Ho conosciuto degli ufficiali italiani che si sono recati da soli a parlamentare con i « capi » di costoro, per persuaderli ad emendarsi, ed ho assistito alla cessione delle loro armi seguita, in cambio dalla loro incorporazione in « bande », una specie di milizia volontaria o di polizia rurale, bande che sono state armate con fucili italiani. Quando io ho sollevato dei dubbi sulla convenienza di un siffatto modo di procedere, mi è stato detto che invariabilmente questa gente si è mostrata fedele; tale è, infatti, il rispetto di cui tutti, sì, tutti gli indigeni circondano i loro governanti.

Trattanto nei pochi posti ove si sta peggio, il traffico è controllato, e gli autocarri che trasportano merci sono obbligati di viaggiare di giorno, e a gruppi per prevenire la tentazione di attacchi, e queste strade sono peristrate da pattuglie, proprio come avviene negli Stati Uniti. Io ho girato senza alcun secondo pensiero e sono arrivato persino ad abbandonare la strada per prendere fotografie.

I beni degli indigeni non sono stati toccati e sono oggi più al sicuro che mai. In tutte le nuove città, che si sviluppano rapidamente, in molti presidi e fattorie, gli indigeni malati vengono curati gratuitamente in ospedali e ambulatorii, dove ricevono anche medicine, steri, arti, ecc.

La lista di tutto quello che è stato fatto nel campo politico, sociale, razziale, sessuale, religioso, industriale, agricolo, della pastorizia e dei trasporti, è lunga ed ammirabile; è una attività che si è ispirata a motivi giusti e umanitari, è guidata dalla saggezza e dalla giustizia e ha ottenuto il rispetto, la fiducia e la fedeltà dell'indigeno, qualunque sia la sua razza, la sua origine o la sua religione.

Siffo chiunque a contraddirmi o anche soltanto a correggermi ».

Il Partito comunista belga in deficit.

Riceviamo da Bruxelles:

« Nei suoi giornali e nei suoi bollettini confidenziali, il partito comunista, detto belga, lamenta regolarmente le proprie difficoltà finanziarie. Il motivo è chiaro: si tratta evidentemente di spremere il più possibile i bravi ed oscuri militanti e di toglier loro la massima quantità di denaro. E' tanto di guadagnato sulla... generosità di Stalin.

Ma il bello è che il partito comunista non mente affatto quando confessa di essere perpetuamente in « deficit ». Ed è vero il fatto che i suoi giornali non fruttino nulla e persino non giungano a coprire le loro spese, e che le riunioni e la propaganda costino enormemente. Ciò è verissimo: nelle finanze del partito c'è un grosso passivo.

Questo « deficit », inoltre, è talmente importante, che non potrà mai essere coperto dalle quasi 8000 quote — del resto pagate con molta irregolarità — né dai doni dei militanti. Questi doni, del resto, non raggiungono i 100.000 franchi all'anno per il quotidiano del partito; il che equivale ad una goccia d'acqua in un lago disseccato.

Perciò, sorge la domanda: con quali fondi il Partito comunista coprirà il suo passivo? Con qual denaro paga i suoi locali, gli impiegati, i funzionari, le riunioni, le autoradio, le librerie, le trasmissioni, i « club d'innocenti », ecc. ecc.?

0739

Eccellente domanda molto imbarazzante.

Normalmente il Partito comunista dovrebbe morire, se non avesse altre risorse che le sue imprese, del resto male amministrate. Non si ignora che parecchie « storie di cassa » hanno arricchito il follore della finanza comunista, particolarmente a proposito dei fondi versati dal governo repubblicano spagnolo per gli ex combattenti delle brigate internazionali.

C'è poi un altro fenomeno curioso nelle finanze del Partito comunista, ed è quello che esso si lagna continuamente della durezza dei tempi, per certe cose, mentre per altre il denaro sembra scorrere a fiumi!

Abbiamo sotto gli occhi la circolare spedita l'11 luglio scorso dalla Federazione di Brusselle del Partito comunista agli abbonati del settimanale comunista fiammingo « Het Vlaamsche Volk » in vista del congresso del 28 luglio ad Alost. Questa circolare, stampata — ciò che prova che essa doveva essere diffusa in grandi quantità — porta come poscritto la seguente nota: « N.B. - Le spese di viaggio saranno rimborsate ». Dunque, il Partito comunista, che contava di rimbalzare ad Alost 8000 partecipanti, aveva i mezzi sufficienti a rimborsare le spese di viaggio, che sarebbero ammontate a parecchie decine di migliaia di franchi.

Il Partito comunista, che confessa di non poter coprire le spese mediante le risorse delle sue imprese (quote di affiliati, vendita di giornali, doni di militanti) possiede larghe disponibilità per le sue pubbliche manifestazioni, per quelle, più precisamente, che hanno lo scopo di colpire le masse.

Che significano dunque gli appelli che esso rivolge ai suoi affiliati per ottenere continui aiuti? Semplicemente che esso si attiene scrupolosamente alle consegne che riceve dal Komintern, che gli impone di trovare una frazione delle sue risorse tra i militanti del Paese.

E per il resto? Per il grosso del « deficit »?

La risposta è chiara: chi comanda il Partito comunista belga? Chi ha interesse a farlo vivere? Chi esercita su di lui una dittatura occulta? Mosca! E dunque, chi paga le spese? Mosca!

Gli ebrei e il bolscevismo.

Nel 1919, tutti i governi dell'Intesa hanno avuto conoscenza della Nota stabilita dal « Servizio Segreto » americano e rimessa all'Alto Commissario della Repubblica francese ed ai suoi colleghi.

« Nel febbraio 1916, per la prima volta, si apprese che in Russia si preparava una rivoluzione. Si scoprì che in quest'opera di distruzione erano implicate le seguenti persone e organizzazioni:

Jakob Schiff - Kuhn, Loeb et C.^{ie} - Félix Warburg - Otto Kahn - Mortimer L. Schiff - Jérôme H. Hahnauer - Guggenheim - Max Breitung.

Non vi è dunque alcun dubbio sul fatto che la rivoluzione russa, che nel 1917 illuminò pienamente questa Nota del 1916, sia stata lanciata e fondata da influenze puramente ebraiche. Infatti, nel mese di aprile 1917, Jakob Schiff dichiarò pubblicamente che la rivoluzione russa era riuscita grazie al suo appoggio finanziario.

Nella primavera del 1917 Jakob Schiff cominciò ad accreditare Trotsky (l'ebreo Braunstein) per l'organizzazione in Russia della rivoluzione sociale. Il « Forward », giornale ebraico bolscevico di Nuova York, versò il suo contributo.

Da Stoccolma l'ebreo Max Warburg accreditava dei pari Trotsky. A questo consorzio di ebrei bolscevichi e di ebrei multimilionari partecipavano: il

Sindacato ebraico.

Ashberg della « Nye ».

l'ebreo Jivolevsky, padre di due « un ».

Nell'ottobre del 1917, quando i sovietisti stabilirono il loro potere sul popolo russo, si notavano tra essi: Oulianov, detto Lenin - Brunnstein (Trotsky) - Nachinnes (Stroekoff) - Zederbaum (Maroff) - Apfelbaum (Zimovief) - Rosenfeld (Kamenef) - Gimmel (Souchanoff) - Krochmann (Surgerski) - Silberstein (Bogdanoff) - Lurge (Larin) - Goldmann (Gorev) - Radomitsky (Uritsky) - Katz (Kamenef) - Furtenberg (Ganetzky) - Gourevitch (Dan) - Goldenberg (Meschkovsky) - Goldhardt (Parvus) - Goldenbach (Riasnov) - Zibar (Marthoff) - Chernomordkin (Chernomorsky) - Biehnmann (Schitzelf) - Zivin (Platinsky) - Rein (Abramovitch) - Volnsien (Zvesdin) - Rosenblum (Majlakovsky) - Loevenschen (Lapinsky) - Natansohn (Bobriev) - Orthodox (Aelrod) - Garfeld (Garin) - Schulze (Glasnovoff) - Loffe: tutti ebrei sotto falsi nomi russi.

Nello stesso tempo, negli Stati Uniti, l'ebreo Paolo Warburg lasciava apparire di essere in così strette relazioni con le personalità bolsceviche, che non fu rieletto al « Federal Reserve Board ».

Jakob Schiff aveva per intimo amico e per agente attivissimo il rabbino Giuda Maene, protagonista del giudaismo internazionale, che lanciò negli Stati Uniti la prima organizzazione apertamente ebraica, detta « Consiglio del Popolo ». Il 24 ottobre 1918 Giuda Maene fece la dichiarazione pubblica della sua adesione senza riserve al bolscevismo, in una riunione del Comitato ebraico d'America a Nuova York. Accreditato da Jakob Schiff, che amministrava con lui la « Kehillah » ebraica, il rabbino Giuda Maene fu il direttore effettivo dell'organizzazione sionista « Poale » e del « Partito ebraico dei lavoratori ».

La firma ebraica Kuhn, Loeb et C.^{ie} era strettamente legata al Sindacato Westfaleo-Romano, agli ebrei Lazard di Parigi, alla firma giudaica Gushbourg (Pietrogrado-Parigi-Tokio), alla firma ebraica Speyer e C.^{ie} (Londra-Nuova York-Francforte) e alla firma ebraica « Nye Banken » (Stoccolma): dal che appare chiaro che il bolscevismo è l'espressione di un movimento generale ebraico, nel quale sono interessate le grandi banche giudaiche.

La repubblica dei Sovieti d'Ungheria, che fu proclamata il 22 marzo 1919 e che durò 133 giorni, aveva per capo, come la repubblica dei Sovieti di Russia, degli ebrei graduati nella massoneria: i massoni: Bela Kuhn - Kunsi (Kohn) - Agoston Peter - Lukacs - Diener - Denes - Zoltan - il terribile carniccio Tibor Szamuely - i Commissari del Popolo o ministri: Garbai (Gruenbaum) - Rostenzi (Bienenstock) - Ronai (Rosenstempel) - Varga (Weisselbaum) - Vince (Weinstein) - Moritz Erdelyi (Belsenstein) - Bela Vago (Salzberger) - Bela Viro (Bienenstock).

(« Analisti dei Protocolli » del Dr. Witch).

La repubblica dei Sovieti di Baviera, sotto l'ebreo Kurt Eisner, ebbe per capi esclusivamente degli ebrei altolocati nelle logge massoniche, Log. N. 7. Log. Zum Aufgehenden Licht an der Isar, e soprattutto, Logge segrete dell'U.O.B.R. (Ordine Universale dei B'nai Brith, che sembrava dominare sulle altre organizzazioni di guerra dell'ebraismo): i massoni ebrei: Max Lowenberg - Dr. Kurt Rosenfeld - Caspar Wolheim - Max Rothschild - Karl Arnold - Rosenbok - Birnbaum - Reiss e Kniser (i dieci accolti immediati di Kurt Eisner); più gli ebrei: Otto Herzenfeld - Dr. Weill - Hoch e Warm; gli ebrei Erich Midam (venerabile) - Fechenbach (segretario particolare di Kurt Eisner) - Dr. Walder (W. Adler) - Dr. Neurath, ecc.

Le banche ebraiche di New York. Influenzano la capitale del Canada.

Montreal, capitale del Canada con 1.200.000 abitanti e seconda città francese del mondo, sta per divenire preda dei giudei. Questi infatti vi hanno di già in mano il commercio, l'industria e la finanza e manca loro soltanto il potere politico.

Alline di controllare il potere politico al Municipio di Montreal, le banche ebraiche di New York Kuhn e Loeb & Co., di cui sono direttori gli ebrei: Jacob Schiff, Felix Warburg, Otto Kahn, Mortimer Schiff, S. H. Hanner, insieme alla banca Lazare, hanno imposto il loro uomo di fiducia nella persona di Helman Swards, informatore particolare del sindaco filosocialista della città, Camille Houde.

Recentemente la stampa canadese ha annunciato che le banche locali hanno rifiutato dei prestiti alla Città di Montreal, omettendo però di precisare che l'atteggiamento di tali istituti finanziari è stato determinato dalle pressioni delle banche ebraiche.

Attualmente, l'influenza delle banche ebraiche si fa talmente sentire che, in alcuni circoli, si ritiene che fra sei o al massimo otto mesi, tutte le istituzioni bancarie del Canada saranno essenzialmente ebraicizzate.

Il sedicente rispetto dei rossi spagnoli per le opere d'arte.

I comunisti hanno sfruttato a dei fini politici l'odissea dei quadri e delle tappezzerie del « Prado », attualmente esposti a Ginevra. Essi vorrebbero far credere che solo i rossi hanno salvaguardato il patrimonio artistico spagnolo, e che sotto la dominazione marxista tutte le opere d'arte sono state scrupolosamente rispettate in Spagna. Si è tuttavia autorizzati a pensare che i soldati appartenenti al movimento nazionalista, ispirato dall'amor di patria e dalla tradizione spagnola, erano più desiderosi di conservare i tesori artistici del loro Paese che i rivoluzionari, distruttori per la loro stessa dottrina, di tutto ciò che ricorda il passato. L'avanzione nazionale conosceva l'ubicazione del celebre Museo di Madrid e, in effetti, si è ben guardata dal lanciare bombe nelle sue vicinanze.

Il sedicente rispetto per le opere d'arte proclamato dai rossi spagnoli sembra essersi manifestato, a parte qualche rara eccezione, esclusivamente per necessità propagandistiche. Per quanto non sia ancora possibile, oggi, di fare il bilancio completo delle opere d'arte disperse in Spagna, ecco, a titolo d'esempio e a smentita delle ipocrite affermazioni dei marxisti, qualcuna delle distruzioni, operate dai rossi, segnalate fino ad ora:

A Madrid la magnifica Cattedrale barocca e numerose chiese, compresa quella di S. Andrea, capolavoro di stile rococò madrilenio, sono state smantellate. A Toledo, le mine e le granate marxiste hanno distrutto l'Alcazar ed importanti edifici del periodo di Carlo V e di Filippo II; l'esplosione dell'Alcazar ha frantumato le vetrate della Cattedrale che risaliavano al sedicesimo secolo; il monastero di S. Giovanni della Penitenza, con il suo splendido soffitto del XV secolo, è stato sventrato e l'Ospedale di S. Croce di Mendoza, un vero tesoro del Rinascimento, è stato gravemente danneggiato. Nella provincia di Toledo, a Illasca, le sculture dell'Ospedale « La Carità », insieme alle più

belle statue di altre o.

Fra le Chiese incendiate a Barcellona,

i più splendidi capolavori dell'arte gotica catalana, come S. Maria del Mare, S. Anna, Santa Maria del Pino e numerose altre. A Vich, la Cattedrale ed una parte del Museo episcopale sono stati distrutti dalle fiamme, con i superbi affreschi di José Maria Sert e gli arazzi del tredicesimo, quattordicesimo e quindicesimo secolo, che vi erano conservati. A Valencia, una parte della Cattedrale è stata bruciata, così come le sette più belle chiese della città, fra cui quella di S. Juanes, col suo soffitto dipinto dal Palomino e una delle più notevoli opere barocche d'Europa. A Castellon de la Plana, tutte le vecchie chiese vennero distrutte per ordine del sindaco rosso, che non risparmiò neanche la chiesa episcopale di S. Maria, del quattordicesimo secolo, mentre i ricchi archivi parrocchiali venivano bruciati sulla piazza della città.

L'arte spagnola ha subito una delle più gravi perdite per la distruzione del convento di Sigena, in provincia di Huesca, fondato nel 1183 dalla regina Sancia d'Aragona. Con esso sono scomparsi il celebre soffitto del Capitolo, le sculture Rinascimento del Fornet e soprattutto le pitture italiane del quattordicesimo secolo.

Nel breve periodo durante il quale Siviglia si è trovata in mano ai marxisti, le chiese di S. Gil (tredicesimo secolo), di S. Roman (quattordicesimo secolo) con le sue magnifiche opere di scultura, della scuola di Siviglia, di S. Rocco (neoclassica del diciottesimo secolo) e di S. Anna (gotico del tredicesimo secolo), furono incendiate. Le opere d'arte contenute nelle chiese di Nostra Signora, di S. Bernardino, dell'Immacolata Concezione, di S. Marina, di S. Marco, di S. Giovanni Battista della Palma, di S. Maria del Monte Sion ed il Monastero Mercedarias de la Visitacion, sono stati distrutti.

Nella provincia di Siviglia, le chiese seguenti sono state bruciate con i loro tesori artistici: Ermita de N. S. d'Aguile (quattordicesimo secolo), S. Sebastiano di Santiago (quindicesimo secolo) e la chiesa parrocchiale di Costantina, con il suo meraviglioso altare del quattordicesimo secolo.

Ecco alcune località ove altre chiese sono state distrutte e delle quali i tesori artistici sono stati trafugati: Alans, Cazalla de la Sierra, Guadalcacal, Moron de la Frontera (una delle più ricche di tutta l'Andalusia), Agnadice, Alcolea del Rio, Aguilantes, Arhah, Azuclazar, Azuclayar, Baldosa, Brenes, Cantillana, Carmona, Casaric, Cortina del Rio, Los Corrales, Gerena, Herrera, Lora del Rio, La Luisiana, El Madrono, Mairena del Alcor, Marchena, Marinaleda, Martin de la Jara, Los Morales, Montellano, Las Navas de la Concepcion, Paradas, Penafior, Puma, Puebla de Cazalla, Puebla de los Infantes, Puebla del Rio, La Roda, El Rubio, San Nicolas, El Saucedo, Tochna, Utrera, Vallanueva, ecc.

E lo stesso è avvenuto in tutte le altre province che sono state sotto la dominazione dei rossi. A fianco di queste innumerevoli rovine, delle statue frantumate e delle opere di pittura sfregiate a colpi di coltello o di baionetta, vanno considerate perdute per la Spagna le innumerevoli opere d'arte inviate all'estero dai marxisti in pagamento di materiale bellico o come ricompensa per servizi a loro resi.

Si sa inoltre che i capi militari e politici rossi, ripartiti all'estero al momento della loro disfatta, hanno aggiunto alle loro innumerevoli colpe anche quella, l'ultima, di portarsi dietro additture delle casse, cariche di oggetti di grande valore, trafugati alla Spagna.

Sotto questo titolo la signora, Carmen de Moroto, dell'« Auxilio Social », ha scritto per il Bollettino d'Informazioni della « Action Mondiale des Femmes contre le Bolchevisme », il seguente articolo, che riportiamo integralmente:

L'attività de l'« Auxilio Social », in Spagna.

« L'« Auxilio Social » non ha proprio bisogno che gli si faccia della pubblicità. La sua migliore propaganda è l'attività che esso spiega instancabilmente. A qual pro' pubblicare degli opuscoli e dei manifesti magniloquenti su la « Grande Spagna », la « Nuova Spagna » apportatrice di pane e di giustizia per tutti, se non possiamo in realtà nutrire gli affamati, consolare quelli che soffrono, ricostruire i villaggi in rovina? A qual pro' pubblicare dei rapporti su « la gioventù sorridente, la speranza di domani », se il popolo spagnolo non assistesse al sorgere di innumerevoli case per i bimbi, di rifugi e di ogni sorta di istituzioni indispensabili? A cosa servirebbero dei lunghi articoli sulla lotta da intraprendere contro le malattie, se le « cucine dietetiche » non fossero in atto per lottare senza quartiere contro le affezioni organiche causate dalle privazioni? Perché parlare di profilassi se i policlinici non spalancassero le loro porte? Perché parlare della protezione della vita familiare, se le cucine popolari non distribuissero ogni mese cinque milioni di pasti? « L'« Auxilio Social » dà regolarmente al popolo spagnolo delle cifre e delle statistiche della sua attività. E ciò senza commenti. Con tali statistiche noi vogliamo semplicemente dire a tutti: — ecco come abbiamo impiegato il danaro che ci avete dato! »

« L'« Auxilio Social » ha iniziato la sua attività in piena guerra civile e, in due anni 1712 istituzioni sono state create. Esse hanno tutte una particolarità: lo slancio meraviglioso che le distingue da tutte le altre che fino ad ora sono state create nel campo sociale. Tutti gli stranieri venuti in Spagna per cercare delle « verità » sulla lotta contro il marxismo, sono unanimi su questo punto e tutta la stampa estera ha pubblicato numerosi articoli su questo soggetto. Attualmente, 200.000 persone sono quotidianamente soccorse dall'« Auxilio Social ». E in queste cifre non sono comprese quelle persone che si nutrono ai refettori pubblici, nei quali, al 31 dicembre 1938, sono stati serviti 170 milioni di pasti.

« L'« Auxilio Social » si è sviluppato con un tale dinamismo che ha potuto sormontare tutte le difficoltà, così numerose, dell'inizio. Per cominciare, si trattava naturalmente di apportare i soccorsi più urgenti. Il « Soccorso d'inverno » è sorto per venire in aiuto a tutti coloro che morivano di fame e di freddo. Regolarmente, si aprivano nuovi refettori per bimbi e per adulti. Dopo dodici mesi di attività, l'« Auxilio Social » poteva dare la seguente statistica: 834 cucine popolari e refettori, 68.941 protetti, più di venti milioni di pasti distribuiti.

« Noi abbiamo saputo che i marxisti avevano impiegato queste statistiche per provare... che il popolo spagnolo moriva di fame! della fame soffocata! E, precisamente, coloro che hanno sofferto di più sotto la dominazione dei rossi sono liberati, ora, dallo spettro della fame. Le statistiche dell'« Auxilio Social » dimostrano chiaramente che le

truppe, noni avano le colonne di soccorso agi. Nella regione dell'Ebro e nella Catala, attività sembra diminuire, nonostante tutti i soccorsi che sono ancora apportati nelle città e nei villaggi, ma ciò è dovuto alla abolizione della standardizzazione della vita nelle province liberate ed al rinnovamento dell'industria e del commercio.

« Dal principio del suo secondo anno di vita l'« Auxilio Social » ha dovuto portare i suoi sforzi verso le regioni liberate dal gioco marxista. Per la prima volta, queste popolazioni hanno avuto una prova lampante dello spirito che anima la Spagna di Franco, di ciò che è veramente la vibrante comunione di tutto un popolo. Vi fu, in seguito, la fondazione del « Soccorso nazional-sindacalista per le madri ed i fanciulli », 84 nuove istituzioni sono state create: dei policlinici, delle case di maternità, dei nidi d'infanzia, delle colonie estive, delle case di riposo e di convalescenza per madri di famiglia, dei refettori per nutrici. Molte di queste istituzioni sono state alloggiate in palazzi moderni, costruiti sotto gli auspici della Commissione nazionale di architettura dell'« Auxilio Social » e sotto il severo controllo di commissioni mediche appositamente costituite.

« A Cordoba, l'« Auxilio Social » ha creato la famosa cucina dietetica con i suoi laboratori e le sue sale riservate ai diabetici indigenti. Molte altre cucine dietetiche sono state successivamente create su questo modello.

« Per tutti coloro che hanno perduto il loro focolare, che non hanno più un tetto sotto il quale ripararsi dal freddo e dalla pioggia, l'« Auxilio Social » ha creato degli asili ove centinaia di disgraziati hanno trovato una accoglienza calorosa, in stanze moderne, provviste di riscaldamento centrale; essi vi hanno trovato delle sale di lettura, la comodità di una radio, e vi possono vivere in attesa di rientrare alle loro case.

Le donne falangiste hanno portato i loro soccorsi nei villaggi liberati inviando cotone, seta, lana ed utensili che le donne possono adoperare per guadagnarsi la vita. In tal modo l'« Auxilio Social » protegge e dà nuovo impulso alla piccola industria a domicilio. L'opera di soccorso raccoglie tutti questi lavori e li impiega nelle sue differenti istituzioni. Null'altro che la confezione di distintivi dell'« Auxilio Social » ha permesso di rendere un certo benessere a delle contrade molto misere. Nello scorso ottobre, a Belchite, l'« Auxilio Social » ha prelevato tutto un blocco di case, le ha trasformate in case abitabili ove numerose famiglie di questa Città martire hanno trovato un ricovero.

« Il 30 ottobre 1938 l'« Auxilio Social » ha pubblicato delle edizioni speciali, destinate ai nostri soldati, oltre che alle popolazioni che erano ancora sotto la dominazione rossa. Nello stesso tempo è stata fondata l'opera delle « confezioni », che conta oggi 52 case e che nel corso dell'ultima campagna del « Soccorso d'inverno » ha distribuito 225 mila vestiti ai protetti dell'« Auxilio Social ». A Pasqua, quest'anno, 300 culle e fasce sono state distribuite ad altrettante madri che avevano partorito a Natale.

« Nel corso della prima metà di quest'anno il « Soccorso nazional-sindacalista alle madri ed ai fanciulli » ha inaugurato 59 nuove istituzioni che costituiscono delle sorgenti di salute e di forza per le generazioni future ».
