NAVAL BOARD DUE IN SOUND NEXT TUESDAY

Military Committee to Review
Project Approved by U. S.
Calling for \$23,605,000

The transport Chaumont, bearing members of the senate and house naval affairs committee, and the cruiser Seattle, with Admiral Robert E. Coontz, new commander of the United States fleet, aboard, will arrive at Bremerton next Tuesday.

There the legislators and Admiral Coontz, former commander of the navy yard, will take up recommendations of the Rodman committee, recently approved by the navy department, calling for expenditure of \$23,605,000 in the course of the next twenty years on improvement of the Puget Sound navy yard.

The improvements recommended include extension of present dry docks and construction of new ones, capable of accommodating the capital ships of the present battle fleet and the speedy fleet of scout cruisers now building.

TWENTY-YEAR PROGRAM

The twenty-year program covers the fiscal years from 1925 to 1945 inclusive. The first appropriation of \$823,000, the experts recommend, shall include \$600,000 for additional berthing at the navy yard; \$130,000 for roads and walks and locomotives and fire apparatus, \$85,000 for improvements at the torpedo station at Keyport, including a fresh water system, sewer extensions and additions to the storeroom, to accommodate 640 additional torpedoes; \$10,000 for the extension of the ammunition building at Ostrich Bay, and \$3,000 for autopsy work at the hospital.

On Aug. 22 the committee is to arrive in Seattle and on the following day will inspect the Sand Point air base site. The naval boards have recommended the acquisition of this site by the navy department, and the expenditure of \$1,491,000 on its development, starting with a \$130,000 appropriation in 1926. Legislative authority for the acquisition of the site will first have to be obtained from the next congress.

REAR ADMIRAL ON TOUR

Rear Admiral L. E. Gregory, chief of the bureau of yards and docks, is accompanying Admiral Coontz on the Seattle. Rear Admiral Gregory, like Admiral Coontz, is a former Bremerton resident, having been stationed there as captain of the yard.

Vessels of the battle fleet, which will be divided among Seattle, Tacoma and Bellingham, during the period Aug. 17 to 27, will be visited by the congressional delegation.

Board Will Inspect Port Angeles Aug. 26

Special to the Post-Intelligencer
PORT ANGELES, Aug. 13.—That the congressional delegation inspecting naval bases will view Ediz Hook Spit at this port, with a view of its possibilities as an advanced submarine or air base, is the opinion voiced here today upon receipt of a letter by Mayor H. M. Fisher to the effect the congressmen would spend Aug. 26 and 27 at this port, coming aboard the U. S. S. Chaumont and U. S. S. Seattle.

\$23,605,000 for Sound Naval Base Approved

WASHINGTON, Aug. 13.—Recognition of the strategic importance of the Pacific was seen today in the approval by the navy department of recommendations for a board for the development of American shore stations.

More than 67 per cent of all appropriations for bases and naval depots and air stations during the next twenty years will go to the erection of first and second lines of support for the navy in the Pacific under the provisions of the report, which, through the signature of Acting Secretary Roosevelt, became the basic policy of the department.

Among the important projects to which the board and the department have given formal approval were:

Naval base, Honolulu, \$42,528,000; naval base, San Francisco, \$26,529,000; naval base, Puget Sound, \$23,605,000; naval base, Canal Zone, \$1,815,000; naval base, San Diego, \$17,101,000.

These projects, covering the Western Coast approaches, contemplate the expenditure of about \$111,000,000 of the \$155,486,000 aggregate of the entire program.

Warships Assemble in Sound for Maneuvers

Special to the Post-Intelligencer
PORT TOWNSEND, Aug. 13.—Nine first-line battleships and thirty destroyers assembled in Port Townsend Bay this afternoon, where they will remain until Thursday, to engage in maneuvers and shore drill for the men. The maneuvers will take place in the Strait of Juan de Fuca west of Point Wilson. The entire fleet, including the destroyers, will participate.
