Note:

1. This is a rough estimate of the cost of construction necessary for the reconstruction resulted from a fire.

1. The success or failure of the construction depends upon the distribution of the controlled materials and as for the finishing touches of construction it will be reconstructed close to the original form according to a simple method owing to the current situation.

However, we may be obliged to change the above method according to the condition of materials secured.

1. The term of period of construction depends upon the distribution of the controlled materials and it is difficult to foretell it exactly.

1. Electricity, heating and sanitary equipments and other collateral works are not included in this estimate.

Dear Mr. Yoshioka,

I have the pleasure to inform you, with regard to upholstery of motor car which I requested your kind assistance in securing the material the other day, that the measurement of the same is as follows.

Upholstery (内張布) Width 52 inches Length 16 yards
Seat cover (被覆布) Width 30 inches Length 18 yards

The motor car is now at the Yanase Works, Shibaura under repair and the work of repair of its engine is nearly completed, but the upholstery is almost useless by wear and tear, and the motor car is for the use of His Excellency the Ambassador, so it is desired to be finished with material suited to the purpose.

In this connection, I shall be greatly obliged if you will be so kind as to give me assistance and facilities in securing the material in question, so that the work may be completed before the arrival of His Excellency the newly appointed Ambassador,

Yours sincerely,

R. Ratanadib

No. 139/1245

ROYAL THAI EMBASSY,
TOKYO.

13th October, 1943.

Monsieur le Ministre,

In continuation of my letter No. 131/1206 of the 2nd instant regarding the Residence of the Thai Ambassador which was destroyed by fire which broke out at that place, I have the honour to inform Your Excellency that a contractor named Shimizugumi & Co., Ltd., have now undertaken to make a repairation of the building in question and have submitted an estimate amounting to Yen 64,082.50 for the said repairation, to which term His Majesty's Government have already accepted.

However, in this connection, certain kinds of materials are required for the purposes above-mentioned. Accordingly, I will deem it a favour if the Imperial Japanese Government could grant to this Embassy the distribution of the materials required for the repairation of the building in question.

I enclose, herewith, a copy of the translation of a letter from the contractor, Shimizugumi & Co., Ltd., to this Embassy, in which the former have stated the amount of estimate and the materials required to be distributed.

I avail myself of this opportunity to renew to Your Excellency, Monsieur le Ministre, the assurance of my highest consideration.

P.S.

We will do our best to get materials and implements for the construction according to their control, but we have to ask your good offices in this matter such as the issue of necessary documents including a letter acknowledging the order, certificate of allotment and so forth.

Please be good enough to understand the following matters in particular owing to the current situation:

1. We shall negotiate with you on the estimated amount if there be a change in the price of materials and wages according to the change of the situation.

1. Please be so kind as to understand that it has been resulted from inevitability if there arise circumstances which make it difficult to complete it as was mentioned in this estimate owing to the use of substitutes, delay of the period of construction, suspension or inability of the work of construction, etc., as a result of the limitations by new laws or regulations or others for the receipt of materials and implements, collection of labours or construction, or inconvenience of transportations.

1. War insurance due in accordance with the Temporary Measures Law for War Insurance cannot be included in this estimated amount.
